THE SCIENTIFIC AMERICAN which has been published weekly for the last thirty-one years, does this to an extent beyond that of any other publication; in fact it is the only weekly paper published in the United States devoled to Manufactures, Mechanics, Inventions an I New Discoveries in the Arts and Sciences.

Every munber is profusely illustrated and its co tents embrace the latest and most interesting information pertaining to the Industrial, Mechanical, and Scientatic Progress of the World; Descriptions, with Beautiful Engravings of new inventions, new inplement, new processes, and improved industries of all kinds; useful notes recipes sugges-tions and advice by practical writers for workmen and employers in all the various arts, forming a complete repertory of new inventions and Discoveries containing a weekly record, not only of the progress of the industrail arts in our own country, but also of all new discoveries and inventions in every branch of engineering, mechanics and science abroad.

THE SCIENTIFIC AMERICAN has been the foremost of all industrial publication for the past thirty one years. It is the oldest, largest, cheapest and the best weekly illustrated paper devoted to engineering, mechanics, chemistry, new inventions, science and industrial progress published in the world.

The practical Recipes are well worth en times the subscription price, and for the shop and house will save many times the cost of subscription.

Merchants, farmers, mechanics engineers, inventors, manufacturers, chemists lovers of science, and people of all professions, will find the Scientific American usefull to them. It should have a place in every family library, study, office, and coun ing room; in every reading room, college and school A new volume commences January 1st.

A year's mumbers contain 832 pages and several hundred En ravings, -Thousand of volumes are preserved for for binding and reference. Terms, \$3.20 a year including postage. Discount to clubs. Special circulars giving club rates sent free. Single copies

ICAN, Messrs. MUNN & Co., are Solicitors of American and Foreign Paten's, and have the largest establishment in the world. More than fifty thousand applications have been made for patents through their agency.

Patents are obtained on the best terms of new inventious and sketckes examined and a lvice free. A special notice in the Scientific American of all inventions patented through this agency with name and residence of the patentee. Patents are often sold in part or to persons attracted to invention by such notice. A pumphet, containing full directions for obtaining patents sent free. The Scientific American Reforence Book, a volume bound in cloth and gilt containing the patent laws, census of the U. S. and 142 Ens. gravings of mechanical movments-Price 25 Cents.
